

Best Practice II

1. **Title of the Practice:** Green Club
2. **Objectives of the Practice:**
 - (1) The main aim of establishing Green Club was to create awareness in students to conserve the natural resources like water, air, soil etc. and make them to promote activities related to it.
 - (2) To create a clean and green consciousness among students through various innovative methods.
3. **Goals:** It aims to work towards an eco-friendly environment in and around colleges and education institutions by efficient use of resources like water, waste, energy and circularity.
4. **The Context:** The Green Club introduces students to the goals, activities, and initiatives of the club, as well as to promote environmental awareness and encourage active participation in sustainable practices. This club aimed to foster a sense of environmental stewardship and community among members.
5. **The Practice:** Green Club at our Institute as per the guidelines from DTE (Directorate of Technical Education) Maharashtra State. It comprises of one Green Club Faculty Coordinator and under that body of four student members. About 110 students joined to our college Green Club. Under this club different environment awareness activities are conducted.
6. **Evidence of Success:** PDEA's College of Engineering's 50 students received certificate for successful completion of Self-paced Course on "Youth Leadership and Climate Action"
7. **Problems Encountered and Resources Required:** --
